THE BLACK AND WHITE STRAWBERRIES

Photographed July 17th, 1934

BLACK AND WHITE STRAWBERRIES

We are exclusive propagaters and originators of this combination of strawberries. No other party has any quantity of them, as we did not sell over 12 plants of either variety to anyone last season (1935), when we first offered them. The white variety is pinkish white in color, does not sell in market readily, but is the sweetest strawberry we ever tasted. A party in Syracuse stopped and purchased 4 qts. of them last summer and he must have passed them around, as over a dozen from that city called for them later on. The black strawberry is the firmest and best canning berry in cultivation. In a canning contest, shown at State Fair in Syracuse Sept. 1935, Mrs. Farmer won first prize for a pint can of these black strawberries over all competitors. The prize was not given for the best can of strawberries only, but for the best can of any kind of fruit shown there. The black strawberry is not only large, very firm and of good flavor, but is very productive. I unhesitatingly recommend it.

Fragaria Nurseries, Pulaski, N. Y.

L. J. Farmer's Price List, 1936

AT IT FIFTY-THREE YEARS

THE Fragaria Nurseries were established by L. J. Farmer in 1883, when he was but 17 years of age. We grew strawberries at first, then fruit and plants, then branched out into raspberries, blackberries, currants and gooseberries; finally we took over a general line of Nursery stock—Shrubs, Roses, Trees, Perennials, Vines, etc. We specialize in everything that may be planted about a country or city home, garden and farm. Our extended experience often enables us to give advice on varieties and methods that may be worth much more to the customer than he pays us for the goods. We solicit your patronage. Write us freely for advice. We have an extended Horticultural library and can answer most any question.

STRAWBERRY PLANTS

We have a good supply of strawberry plants, but on account of the cold unfavorable weather of last fall, the general supply of strawberry plants is the scarcest for years. In the following list "E" stands for early; "M" for medium; "L" for late; and "F. B." for fall or everbearing.

NEW GEM AND GREEN MOUNTAIN EVERBEARING STRAWBERRIES

The past autumn, (1935) the originator of Green Mountain picked 750 qts. from $\frac{3}{4}$ acre of this variety, which sold for 35c per qt. The New Gem fruited with us, and is the most satisfactory fall bearing berry we have ever fruited, but in the height of the season, we had unprecedented rains and after they stopped the New Gem blighted and lost its foliage, although all others were affected more or less. We shall spray all our strawberry plants with Bordeaux Mixture henceforth.

LARGE SIZE SHRUBS, ROSES, ETC.

We have a supply of extra large trees, shrubs, roses, etc. especially Spirae, Hydrangeas and Evergreens. Just the thing for people who want extra nice stock for immediate effect. Send your list of wants for special prices, or come and see us.

NEW RED BARBERRY

We have a large block of five year old plants, extra fine, of this wonderful shrub, just like Japanese barberry, but the color. Instead of green, the leaves are a deep red from the time they are fully out, until killed down by the icy blasts of winter. Fine for single specimens or groupings, hedges, etc., in full sunlight. The prettiest thing on our place. Price of plants, 25c, 30c and 40c, depending on size.

PEAT MOSS

We handle only the best Swedish peat moss, packed in substantial bales of about 20 bushels each. Peat moss is fine for livening up heavy clay soils and for aiding sandy and gravelly soils in retaining water. It is fine for the lawn and to put around azaleas and rhododendrons to sour the soil. Much used by poultrymen under roosts to catch and mix with the droppings. Price \$3.00 per bale, 2 or more bales, \$2.50 each.
